

About Us

The people behind **WoodTrend** share 50 years of experience and passion in working with **wood** and this is reflected in the product collection which is the result of a premium **selection of real, natural woods**.

What we do **NOT** offer:

- There are **NO** old-fashioned 2- and 3-strips;
- There are **NO** finger-joints on wear or back layer;
- There are **NO** superficial, inferior stains;
- There are **NO** painted surfaces to imitate what it is not;
- There are **NO** thin wear-layers which cannot be repaired;
- There are **NO** low qualities;
- There are **NO** high prices!

What we **DO** offer **YOU**:

- ONLY** beautiful planks, wide planks and extra wide planks;
- ONLY** full width boards, ensuring increased stability;
- ONLY** premium finishes from world-class manufacturers;
- ONLY** processes where colour is penetrating into the wood;
- ONLY** solid wood – or with a durable 4 mm+ wear layer;
- ONLY** premium qualities, for look, strength and durability;
- ONLY** all-year competitive prices giving **YOU** piece of mind!

We only work with leading **world-class manufacturers** including suppliers of glue for our engineered flooring or the oil or varnish for the superior surface finish, whether for our solid or our engineered flooring range. Our **quality is the highest possible** to ensure your piece of mind. For most products, when nature allows, this means that our prime grade excludes any different coloured, inferior sapwood so you are only looking at the best which nature has to offer.

Our Premium Decking Planks, Decking Tiles and Cladding are only offered in a **durable wood lasting a "lifetime" and easy to maintain**. It is so **strong and durable** that it does not need any maintenance at all. Instead of the original dark, brown colours, it will simply turn into a beautiful silver-grey patina – still lasting a 'lifetime'. The quality is the best, excluding the softer sapwood, as for exterior conditions, this would reduce the lifespan – and strength – of your new deck, deck tiles or cladding.

All products are prepared and distributed using the best procedures in **manufacturing, logistics and technology** - and complimented with a dedication not only to **preserve** but **improve** our **present and future environment**.

All to give **YOU** the option to choose **YOUR** preference to enhance the value, appearance and quality of **YOUR** project – at a price which allows you to start **thinking** how best to spend or invest the balance ...

Compare us with on-line companies, high street shops, DIY and Garden Centres, even professional trade suppliers – and be amazed by the balance which **WoodTrend** is passing on to **YOU**. Best of all there is no magic! There is no compromise on quality, finish, accessories, manufacturing, storage or distribution! Just a genuine interest and respect for **wood**. A whole new way of **thinking**; Selecting the logical options in our modern world; Presenting the options to help **YOU** decide if you want fashionable, traditional, exotic, admirable, easy to maintain, stable, long-lasting, good-looking, ecological floors, decking, decking tiles or cladding. Our commitment is to be organized for **YOUR** benefit. To ensure the natural feel becomes a part of **YOUR** daily life.

So – for that balance – think carefully. You will be surprised what **CAN** be achieved.

Our **stock** collection is available for **prompt delivery**. The **bespoke** collection is available through **forward orders**, for delivery within the schedule of a normal project. And finally, if **YOU** have special requirements such as extra long decking or flooring, other species (there are more than 100,000 wood species in the world) – or profiles and widths – please send us **YOUR** idea and we will endeavour to provide you with the **best possible, specialist solution**.

We will be very happy to:

- ... make an appointment for you to explore our showroom ...
- ... reply to your e-mail for enquires and bespoke solutions ...
- ... attend to your call doing our best to answer any queries ...

WoodTrend – **YOUR** on-line solution for high quality products.

Still **thinking**?

Wood is one of nature's few truly renewable resources
It feels good
It is strong
It is beautiful
